RE: WT Docket No. 14-133

The County of Hidalgo, Texas (Region 53) has reviewed the request for waiver Sprint has submitted to the FCC to permit wideband operations in portions of the Texas NPSPAC regions. The County reviewed Sprint's proposed operations and has "**no objection**" with its request for waiver. Sprint's waiver proposes well more than 80-miles of separation between the County's public safety operations and where Sprint plans to deploy LTE in other areas of San Antonio NPSAC Region. This separation should not create interference issues for the County and Sprint recognizes that we will contact them immediately if any issues arise. Moreover, the County's "no objection" is dependent upon Sprint's **written pledge** of expedited treatment under the interference complaint process outlined on the 800MHz Interference Notification Site and Sprint's pledge to act immediately to resolve interference issues that may arise.

Respectfully,
